

Acti-Lance

Safety & Comfort First

SAFETY LANCETS
FOR CAPILLARY
BLOOD SAMPLING

Easy to handle: Intuitive 2 step operation

Sterile: Needles are gamma-sterilized, fully covered and protected with a sterility tab

Efficient: an adequate blood sample with just a single push of the button

Safe: No possibility to reuse

Gentle: Electro-polished and silicone-coated needle is linearly driven to assure lower pain and quick healing

Reliable: Risk of misuse or receiving an incorrect blood sample is eliminated through a unique, patented, self-destructive activation mechanism

CE 0344

KEY FEATURES OF ACTI-LANCE

- **Easy to handle:** intuitive activation, low firing force, no lancet loading required, 2 step operation only
- **Minimized pain:** ultra sharp and silicon coated needle, double spring mechanism to ensure high puncture speed and eliminate needle vibrations
- **Sufficient to lance once:** different color-coded versions, right needle exposure length, adequate blood flow
- **Self-destructive mechanism** excluding possibility of reuse, sterilized reliable sterility protector
